SBA FACADES

To Design Supply and Install Non combustible cladding systems, windows, doors and glazing products on existing high rise residential properties requiring fire remediation and upgrades in accordance with the current Scottish Fire safety Act and associated standards.

We also liase with and manage industry leading Suppliers and provide our own sub contract specialist Installers, Project Managers, Site Managers, Crane Operators, Lifting Supervisors, Banksman, Logistics and Fire Marshalls for the whole envelope in the construction market and cladding industry all at competitive market rates to suit the Clients budget and guarantee a first class performance level at all times.

SBA FACADES

To offer a variety of services and products specifically aimed at the Façade Market in the Construction Industry.

Our team source, work with and manage experienced specialist professionals who can help assist in the construction of Façade Remediation projects on site that are part of the highrise residential market.

We provide a combination of skilled, intelligent and well qualified Teams who can work efficiently under pressure and take responsibility for managing all work activities on site and coordinate all cladding operations on site.

As well as offering a robust selection of Façade/Fire Remediation management and products at all levels we also specialise in providing hands on site based operatives to work on all aspects of the construction remediation project within local residential markets.

Our team can also tailor the various packages of cladding products to match the design intent with Main Contractor and Sub Contractor involvement along with Client requirements.

We offer a single source responsibility by providing the best Façade Contractor offer and who can minimise package interface risk supported by the extensive skills and experience of team members within our group and working in association with our Façade Consultants, Architect, Fire engineers, Main Contractor and cladding supply chain within the Facade industry framework and the local residential market.

The core Team consists of Terry Nicolls Managing Director, SBA Operations and Sales Manager co ordinating the team in house alongside our Company Secretary and Sales Consultants for our supply chain including window, doors and curtain walling products.

THE SBA FACADES GROUP AND PARTNERS

The SBA Facades Group consists of a closely related network of specialist companies providing all aspects of façade and cladding services for the Construction Industry and local residential market.

We manage the design supply and installation of the whole envelope, providing specific façade project management and consultancy, specifically non-combustible facades and cladding products to the local residential and housing sectors.

Within the SBA Facades Group of companies we endeavour to provide an overall façade materials and management service from “cradle to grave” and a comprehensive aftercare and maintenance regime during the service life of our Facades.

In the UK particularly in Scotland we have established business relationships with most of the key Developers, Main Contractors, Architects and Suppliers/Manufacturers in the Construction market.

In addition and exclusively within our organisation we integrate with local Clients on both new and refurbishment /fire remediation/cladding projects giving us strength and depth in the Scottish housing market as we currently work on a number of selective tenders within the Facade and housing market UK wide.

We are currently planning a portfolio of Scottish projects with an anticipated overall Façade strip out and new reinstatement value of circa £100M which includes Façade upgrade properties.

THE SBA FACADES MISSION

The external envelope is unquestionably one of the most significant elements of any major construction project and we at SBA Facades undertake to ensure that it is designed, supplied and managed proficiently and that we cater for all the major roles needing to be performed on reconstruction upgrade.

We aim to provide Façade management individuals who incorporate their major sales skills below:

1. Efficient and reliable to suit the Clients needs.
2. Cost effective and long term service on site and at the highest quality.
3. Fastrack operators to site with ultimate regard for safety and planning as a priority.
4. Articulate and punctual wherever the location.
5. To manage and control all work activities to the highest standards.
6. To maintain and control the best performance at all times.
7. To create a long and effective reputation for working hard under pressure.
8. Adhering to acceptable standards and modern concepts
9. Deliver the highest quality of workmanship on all aspects of the build

SBA FAÇADES: INDUSTRY LEADERS IN FAÇADE REMEDIATION IN SCOTLAND

The SBA FACADES Group prides itself with being associated with the mainstream professionals and leaders in the Façade Industry in Scotland and around the UK

We endeavour to participate in prestige projects requiring high expertise, top quality and experienced management all with single source responsibility.
